ABSTRACT

This statistical report on Michigan's libraries presents data provided by academic libraries, public libraries, public library cooperatives, and those public libraries that that serve as regional or subregional outlets to provide services for blind and physically handicapped patrons. For academic libraries, data are compiled from the 1998 academic library survey distributed by the U.S. Bureau of the Census. All postsecondary libraries in the state were invited to participate; the 91 libraries that responded are included in this report. Following the national and regional comparative data, statewide summaries are provided. Data for academic libraries include student enrollment, outlets, staff, library services, staff expenditures, information resources expenditures, other operating expenditures, collections added, collections held, and electronic services. For public libraries, the reporting year is the most recent fiscal year completed by each library prior to October 1, 1998. Public library data include: class size; salary and benefit information; non-resident fees and MichiCard membership; technology; outlets, hours, and staff; operating income; operating expenditures; capital income and expenditures; square footage; library collections; and library services. Contains a copy of the Public Library Annual Report form and instructions. (MES)

Introduction

The 1999 edition of the Michigan Library Statistical Report presents data provided by academic libraries, public libraries, public library cooperatives, and those public libraries which serve as regional or subregional outlets to provide services for blind and physically handicapped patrons.

For academic libraries, data is compiled from the 1998 academic libraries survey distributed by the U.S. Bureau of the Census. Definitions for these data elements are based on the Integrated Postsecondary Education Data System (IPEDS-L). All postsecondary libraries in the state were invited to participate. The 91 libraries that responded are included in this report.

For public libraries the reporting year is the most recent fiscal year completed by each library prior to October 1, 1998. Definitions for data elements are based on the Federal State Cooperative System for Public Library Data (FSCS) of the U.S. Department of Education, National Center for Education Statistics. By using this national system and its definitions of terms, Michigan's data is comparable with that of the other 49 states and the District of Columbia. Of course, caution should be used in comparing any one library with national or state averages.

All legally established public libraries in the state of Michigan were invited to respond. Data was collected as part of the State Aid Application. Library systems were asked to report data that includes their main and branch libraries. A copy of the Public Library Annual Report form and instructions are included in this publication.

The calculated total for "Population of Library Service Area" exceeds the state's total population because more than one public library may count the same population. For example, a district library may share part of another library's service area by virtue of having a participating municipality, such as a school district, with geographic boundaries extending into the adjoining library's service area. Statewide totals, averages, and per capita were calculated based on the actual total state unduplicated population.

The publication includes a Public Library Index that identifies basic information for each library including the class size under which library data is reported. A library is listed twice in the Public Library Index if the library experienced a name change between its reporting year end and the reporting date of the Public Library Annual Report. Data from the Public Library Annual Report Section A, Current Information, is presented under the name of the library at the reporting date. Reports included in this section are Salary and Benefit Information; Non-Resident Fees and MichiCard Membership; and all Technology. Data from the Public Library Annual Report Section B, Reporting Year Information, is presented under the name of the library at the library's reporting year end. Reports included in this section are Outlets, Hours and Staff; Operating Income; Operating Expenditures; Capital Income and Expenditures and Square Footage; Library Collections; and Library Services.

The following libraries had a name change:

Reporting Date Name	Reporting Year End Name
Ashley District Library	Established 7/28/98
Delta Township District Library	Established 7/1/98
Sandusky District Library	Sandusky Public Library
Sanilac District Library	Sanilac Township Library

Bay County Library System, Muskegon County Library and Wayne County Public Library do not report central libraries. They are included in the 383 public libraries in the statewide summary reports.

To make the publication more readable, a blank indicates that the library reported "0", "none", or did not report. Data was accepted as reported. In some cases, libraries were contacted to clarify responses. There were no imputations for libraries that did not respond or for items left blank. Thus, unless the response rate to a data element was 100 percent, totals in the tables are probably underestimates. Data was shown as reported for Oakland County Research Library and Washtenaw County Library, but in specific reports was not included in the totals or averages due to their having a unique structure not consistent with other Class I libraries.

Librarians, trustees, and local government officials can use library data in a variety of ways to support local long-range planning efforts, the local budget process, evaluation, and in general, for informed decision-making. Statistics can be used to demonstrate effective use of public funds, involvement in a community, and the need for new services or electronic resources. Users of this information should note that libraries, including those of similar size, have varying funding and service patterns, and that a single data element does not present the entire picture. All data must be interpreted in an appropriate context and in terms of the library's overall service program. Statistical data can only suggest patterns and indicate areas which may need improvement or special attention by the local decision-makers.

Thank you to all respondents for the accurate reporting of these statistics. We want to make this report as complete and useful as possible. If you have any comments or suggestions, we would like to hear from you. Please direct your comments to Naomi Krefman at the Library of Michigan, 717 West Allegan Street, P.O. Box 30007, Lansing, MI 48909-7507, e-mail: nkrefman@libofmich.lib.mi.us.

Changes from the 1996 form for

1998 ACADEMIC LIBRARIES SURVEY

▶ Cover sheet - Library definition

The definition of the library has been reformatted as a checklist. Also, the possibilities of reporting data FOR another library or having data reported BY another library have been clarified in connections with related changes on page 4.

▶ Part B - Library Staff

In addition to reporting a total full-time equivalent (FTE) for librarians and other professionals, respondents are asked to report separate counts for librarians and for other professionals on the library staff.

▶ Part C - Library Expenditures

- The title of this part has been changed to reflect the fact that in many academic libraries the term "operating expenditures" does not cover expenditures for staff or for information resources. Expenditures for "operating" (lines 20–23) are grouped under that subheading.
- Expenditures for "books, serial backfiles, and other materials" are reported in two categories: paper and microform and electronic.
- All expenditures for current serials are now reported on two lines: paper and microform and electronic.
- Expenditures for search services and current serials are reported together.

▶ Part D - Library Collections

This section has been reduced from 18 lines to 7 lines. Deleted items include manuscripts and archives (linear feet), computer files, and other library materials. Cartographic materials, graphic materials, sound recordings, and film and video materials are now combined under Audiovisual materials. The simplification involves two kinds of changes. Counts are now requested for selected types of material only, rather than for all. Also, for each type, respondents are asked to provide a physical count or a bibliographical count but not both.

▶ Part E - Library services

No content changes.

▶ Part F - Library Services, typical week

No content changes.

▶ Part G - Electronic Services

Video/desktop conferencing, satellite broadcasting, scanning equipment and services for distance education students questions were added to this part.

PURPOSE OF THE SURVEY

The National Center for Education Statistics (NCES) collects these data periodically to obtain and report a comprehensive picture on the status of collections, transactions, staff, service per typical week, and library operating expenditures in postsecondary institutions. The survey is being conducted in compliance with the Center's mission "to collect, and analyze, and disseminate statistics and other data related to education in the United States . . .", (P.L. 103-382, National Education Statistics Act of 1994, Sec. 404(a)).

USES OF DATA

Collection of these data over time will enable the nation to plan effectively for the development and use of postsecondary education library resources. Congress uses the data to assess the need for revisions of existing legislation concerning libraries and the allocation of Federal funds. Federal agencies need the data to evaluate and administer library programs. State education agencies and college librarians and administrators use the data for regional and national comparisons of library resources to plan for the effective use of funds. Finally, library associations and researchers use the survey results to determine the status of library operations and the profession.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0582. The time required to complete this information collection is estimated to vary from 30 minutes to 6.0 hours per response, with an average of 2.5 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:** U.S. Department of Education, Information Management Team, Washington, DC 20202-4652. **If you have any comments or concerns regarding the status of *your individual submission* of this form, write directly to:**

National Center for Education Statistics/IPEDS
U.S. Department of Education
555 New Jersey Avenue, NW
Washington, DC 20208-5652

The definitions and instructions for compiling IPEDS data have been designed to minimize comparability problems. However, postsecondary education institutions differ widely among themselves. As a result of these differences, comparisons of data provided by individual institutions may be misleading.

GENERAL INSTRUCTIONS — L

Please respond to each item on this form in the space provided. If the appropriate answer is zero or none, use "0." If you do not collect data for an item, provide your best estimate. **PLEASE DO NOT LEAVE ANY LINES BLANK.** If a line is left blank, NCES will impute a figure using the average for institutions with similar characteristics. Include data for the main or central library and all branch and independent libraries that were open all or part of fiscal year 1998.

INSTITUTIONAL IDENTIFICATION

In the space provided on the front page of this report, make any necessary corrections to the preprinted address information. Also, please enter the name, title, area code and telephone number of the person responsible for completing the report.

PERIOD OF REPORT

Report information for the following time periods as specified in each section:

1. **Fiscal year 1998 –** Any 12-month period between **June 1, 1997 and September 30, 1998** which corresponds to your institution's fiscal year. (For Parts A, C, D, E, and G)
2. **Typical week, Fall 1998 –** A typical week is one that is neither unusually busy nor unusually slow. Avoid vacation periods for key staff or days when unusual events are taking place on the campus or in the library. Choose a week in which the library is open its regular hours. Include any seven consecutive calendar days. (For Part F)
3. **Fall 1998 –** The period during the fall of 1998 when the survey form is being completed. (For Parts B, F, and G)

PART A – NUMBER OF PUBLIC SERVICE OUTLETS, FISCAL YEAR 1998

Library – An entity that provides all of the following:

1. An organized collection of printed or other materials or a combination thereof;
2. A staff trained to provide and interpret such materials as required to meet the informational, cultural, recreational, or educational needs of clientele;
3. An established schedule in which services of the staff are available to clientele;
4. The physical facilities necessary to support such a collection, staff, and schedule.

This includes libraries that are part of learning resource centers.

Branch and independent libraries (line 01) – Report the number of branch and independent libraries at your institution that were open all or part of fiscal year 1998. EXCLUDE THE MAIN OR CENTRAL LIBRARY. Branch and independent libraries are defined as auxiliary library service outlets with quarters separate from the central library of an institution which have a basic collection of books and other materials, a regular staffing level, and an established schedule. Branch and independent libraries are administered **either** by the central library or, as in the case of some libraries (such as law, medical, etc.), through the administrative structure of other units within the university. Departmental study/reading rooms are not included. Include data for all branch and independent libraries on the campus. Include libraries on **branch campuses** (i.e., located in another community) if those campuses are registered under the same NCES UNITID number as the main campus.

PART B – LIBRARY STAFF, FALL 1998

Full-time equivalent (FTE) employees (lines 02-08) – Report the number of filled or temporarily vacant FTE positions during Fall 1998 paid from funds under library control. To compute FTEs of part-time employees and student assistants, take the TOTAL number of hours worked per week by part-time employees IN EACH CATEGORY and divide it by the number of hours CONSIDERED BY THE REPORTING LIBRARY TO BE A FULL-TIME WORK WEEK (e.g., 60 hours per week of part-time work divided by 40 hours per full-time week equals 1.50 FTE). Data should be reported to two decimal places.

Librarians (line 02) – Report the total FTE of staff whose duties require professional education (the master's degree or its equivalent) in the theoretical and scientific aspects of librarianship.

Other professional staff (line 03) – Report the total FTE of staff whose duties require education and/or training in related fields (e.g., academic disciplines, archives, media, computing).

Total librarians and other professional staff (line 04) – Report the sum of lines 02 and 03.

All other paid staff (except student assistants) (line 05) – Report the total FTE of all other library staff who are paid annual salaries or hourly wages except students, who are reported on line 05. Include technical and clerical staff, but exclude maintenance and custodial staff.

Contributed services staff (line 06) – Report the total FTE for contributed services staff. Contributed services staff are those, such as members of religious orders, whose services are valued by bookkeeping entries rather than by full cash transactions. Do not include volunteers.

Student assistants from all funding sources (line 07) – Report the total FTE of student assistants, employed on an hourly basis whose wages are paid from funds under library control or from a budget other than the library budget, including College Work Study Program. Exclude maintenance and custodial staff.

Total FTE staff (line 08) – Report the sum of lines 04 through 07.

PART C – LIBRARY EXPENDITURES, FISCAL YEAR 1998

Expenditures (lines 09-25) – Report funds expended by the library in fiscal year 1998 (regardless of when received) from its regular budget and from all other sources; e.g., research grants, special projects, gifts and endowments, and fees for services. If items in this section are not paid from the library budget but can be easily identified in other parts of the institution's budget, report them here. Expenditures should be reported for the 12-month period which corresponds to your library's fiscal year between the calendar period June 1, 1997, to September 30, 1998. All expenditures should be reported in whole dollars in the most appropriate category to provide an unduplicated count of expenditures. Exclude expenditures for new buildings and building renovation. DO NOT REPORT ANY EXPENDITURES MORE THAN ONCE.

PART C - LIBRARY EXPENDITURES, FISCAL YEAR 1998 - Continued

Salaries and wages (lines 09-11) - Report expenditures for full-time and part-time salaries and wages before deductions. Exclude employee fringe benefits provided by your institution for all regular library staff which may be reported on line 25. Include salaries and wages from all sources paid to students serving on an hourly basis, if available; e.g., College Work Study Program. Exclude contributed services and maintenance and custodial staff.

Information resources (lines 12-19):

Books, serial backfiles, and other materials (lines 12 and 13) - Report expenditures for all published materials. Do not include current serial subscriptions.

Paper (line 12) - Report expenditures for all materials produced by making an impression with ink on paper.

Microform (line 12) - Report expenditures for all photographic reproductions of textual, tabular, or graphic materials reduced in size so that they can be used only with magnification. Examples of microforms are roll microfilm, microcard, microfiche, and ultrafiche.

Electronic (line 13) - Report expenditures for materials that are considered part of the collection, whether purchased or leased, such as CD-ROMs, magnetic tapes, and magnetic disks, that are designed to be processed by a computer or similar machine. Include material available remotely. Include expenditures for materials purchased jointly if such expenditures can be separated from other charges for joint services. Include expenditures for equipment when the cost is inseparably bundled into the price of the information service product. Exclude expenses for library system software and microcomputer software used only by the library staff which are reported on line 21.

Current serial subscriptions and search services (lines 14 and 15) - Report expenditures for current subscriptions to serials. These are publications issued in successive parts, usually at regular intervals, and, as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies. Include leases to collections of electronic serials. Include cost of search services such as First Search or Dialog.

Paper (line 14) - Report expenditures for all materials produced by making an impression with ink on paper.

Microform (line 14) - Report expenditures for all photographic reproductions of textual, tabular, or graphic materials reduced in size so that they can be used only with magnification. Examples of microforms are roll microfilm, microcard, microfiche, and ultrafiche.

Electronic (line 15) - Report expenditures for materials that are considered part of the collection, whether purchased or leased, such as CD-ROMs, magnetic tapes, and magnetic disks, that are designed to be processed by a computer or similar machine. Include material available remotely. Include expenditures for materials purchased jointly if such expenditures can be separated from other charges for joint services. Include expenditures for equipment when the cost is inseparably bundled into the price of the information service product. Exclude expenses for library system software and microcomputer software used only by the library staff which are reported on line 21.

Audiovisual materials (line 16) - Report expenditures for all library materials that are displayed by visual projection or magnification or through sound reproduction, or both, including graphic materials, audio materials, motion pictures, video materials, and special visual materials such as three-dimensional materials.

Document delivery/interlibrary loan (line 17) - Report expenditures for document delivery and interlibrary loan services. Include fees paid for photocopies, costs of facsimile transmission, royalties and access fees paid to provide document delivery or interlibrary loan. Include fees paid to bibliographic utilities if the portion paid for interlibrary loan can be separately counted. Do not count expenditures related to transactions between the main or central library and any libraries reported in Part A, transactions between libraries reported in Part A, or expenditures for on campus delivery.

Preservation (line 18) - Report expenditures associated with maintaining library and archival materials for use either in their original physical form or in some other usable way. This includes but is not limited to binding and rebinding, materials conservation, deacidification, lamination, and restoration. Do not include staff salaries and wages.

Other materials (line 19) - Report any other collection expenditures not already included on lines 12 through 18, such as expenditures for cartographic materials and manuscripts.

Operating Expenditures (lines 20-23)

Furniture and equipment (line 20) - Report expenditures for all library furniture and equipment purchased during the 1998 fiscal year. Include microform equipment, audiovisual equipment, and related maintenance costs. Exclude computer equipment.

Computer hardware and software (line 21) - Report expenditures from the library budget for computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer. Include expenditures for maintenance. Include the expenditure for equipment used to run information service products when that expenditure can be separated from the price of the product. Exclude expenditures reported on line 15.

Bibliographic utilities, networks, and consortia (line 22) - Report expenditures for services provided by national, regional, and local bibliographic utilities, networks, and consortia. Exclude expenditures already reported on lines 15 and 17.

All other operating expenditures (line 23) - Report all other expenditures not already reported on lines 09 through 22 except employee fringe benefits which are reported on line 25. Exclude expenditures for new buildings and building renovations.

Total (line 24) - Report the sum of lines 09 through 23.

Employee fringe benefits (line 25) - If benefits are paid from the library budget, report the amount here.

PART D - LIBRARY COLLECTIONS, FISCAL YEAR 1998

NOTE - This section of the survey collects data on selected types of material. It does not cover all materials.

Column (1), Total number added during fiscal year - Report the gross number of each category added. Do not subtract the number withdrawn.

GENERAL INSTRUCTIONS - L - Continued

PART D - LIBRARY COLLECTIONS, FISCAL YEAR 1998 - Continued

Column (2), Total number held at end of fiscal year - Report the total number of each category held at end of fiscal year. To get this figure, take the total number held at the end of the previous fiscal year, add the number added during the fiscal year just ended and subtract the number withdrawn during that period.

Units (lines 28 and 32) - An individual physical item of library material. Examples of units are: a volume (books and serials); a reel, sheet, or card (microforms); disk, cassette, reel, slide, chart, picture, tape, or cartridge (audiovisual material).

Volumes (line 26) - Report the number of volumes of any printed, mimeographed, or processed work contained in one binding or portfolio, hardbound or paper bound, which has been cataloged, classified, or otherwise made ready for use. Include any government documents that are accessible through the library's catalog regardless of whether or not they are separately shelved. This includes documents for which records are provided by the library or downloaded from other sources into the library catalog.

Titles (lines 27 and 29) - Report the number of titles of publications which form a separate bibliographic whole, whether issued in one or several volumes, reels, disks, slides, or parts. The term "publication" applies to printed materials, such as books, periodicals, and government documents, as well as to such formats as microforms, audiovisual materials, and computer files. To determine the number of titles, count each unique bibliographic record in the library's catalog.

NOTE - For libraries which have card catalogs, a unique bibliographic record is represented by a shelf list entry. Libraries with electronic catalogs should be careful to distinguish between the BIBLIOGRAPHIC record which describes the title and the ITEM records which describe the individual volumes, parts, reels, disks, etc., associated with the title. Examples: Six copies of the same edition of a title count as one title or bibliographic record; two editions of the same title which have been cataloged or recorded separately count as two bibliographic records; a set of six monographs for which there are six bibliographic records counts as six titles; and two multi-volume sets of the same edition for which one bibliographic record has been made count as one title.

Books, serial backfiles, and other materials including government documents (lines 26-29) - Report the number of paper volumes and/or titles; microform units and electronic media titles.

Paper (line 26 and 27) - Materials produced by making an impression with ink on paper. For government documents, please use the following guides from the ARL Statistics: "if a volume count has not been kept, it may be estimated through sampling a representative group of title records and determining the corresponding number of volumes, then extrapolating to the rest of the collection. As an alternative, an estimate may be made using the following formulae: 52 document pieces per foot: 10 'traditional' volumes per foot; 5.2 document pieces per volume."

Microform (line 28) - Report the number of units of photographic reproductions of textual, tabular, or graphic materials reduced in size so that they can be used only with magnification. Examples of microforms are: roll microfilm, microcard, microfiche, and ultrafiche.

Electronic (line 29) - Report the number of titles of materials that are not current serials and are considered part of the collection, whether purchased or leased, such as CD-ROMS, magnetic tapes and magnetic disks, that are designed to be processed by a computer or similar machine. Include materials available remotely. Include materials purchased jointly. Exclude bibliographic records used to manage the collection, library system software, and microcomputer software used only by the library staff. Include government documents.

Current serial subscriptions (lines 30 and 31) - Report the total number of current serials received including those that are paid for and those received without payment. Include government documents issued serially. Each available title counts as one when titles are received as part of an electronic subscription.

Audiovisual materials (line 32) - All library materials that are displayed by visual projections of magnification or through sound reproduction, or both, including graphic materials, audio materials, motion pictures, video materials, and special visual materials such as three-dimensional materials.

PART E - LIBRARY SERVICES, FISCAL YEAR 1998

Document delivery/interlibrary loans (lines 33-38) - On lines 33, 34, and 35, report the number of filled requests for material provided to other libraries. On lines 36, 37, and 38, report the number of filled requests for material received from other libraries or document delivery services. Do not include transactions between the main or central library and any libraries reported in Part A or transactions between libraries reported in Part A.

Returnables (lines 33 and 36) - Report materials that the supplier/lending library expects to have returned. Examples of returnables include books, dissertations and theses, microfilm reels, sound recordings, and audiovisual material.

Non-returnables (lines 34 and 37) - Report materials that the supplier/lending library does not expect to have returned. Examples of non-returnables include photocopies or facsimiles, fiche-to-fiche copies, print copies from microfilm, electronic full-text documents, and gratis print copies of unpublished reports and/or departmental working papers.

Total loans (lines 35 and 38) - Sum lines 33 and 34 for line 35, and sum lines 36 and 37 for line 38.

Circulation transactions (lines 39 and 40) - Report the number of items lent from the general collection on line 39 and from the reserve collection on line 40 for use usually (although not always) outside the library. These activities include initial charges, either manual or electronic, and also renewals, each of which is reported as a circulation transaction.

General collection (line 39) - Those materials that are available for circulation from the general library collection.

Reserve collection (line 40) - Those materials that have been removed from the general library collection and set aside in a library so they will be on hand for a certain course of study or activity in process. Usually, the circulation and length of loan of items in a reserve collection are restricted so that these items will be available to many users who have need of them within a limited time period.

GENERAL INSTRUCTIONS - L - Continued

PART E - LIBRARY SERVICES, FISCAL YEAR 1998 - Continued

Information services to groups (lines 41 and 42) - Report the total number of presentations (line 41) and the total number of persons attending or served by those presentations (line 42). Information services to groups are presentations at which a staff member or person invited by a staff member provides information intended for a number of persons and planned in advance. These services may be either bibliographic instruction or library use presentations, or cultural, recreational, or educational presentations. Presentations both on and off the library premises should be included, as long as they are sponsored by the library. Do not include meetings sponsored by other groups using library meeting rooms.

PART F - LIBRARY SERVICES - TYPICAL WEEK, FALL 1998

Collect data during a typical week in the fall. A typical week is one that is neither unusually busy nor unusually slow. Avoid vacation periods for key staff or days when unusual events are taking place on the campus or in the library. Choose a week in which the library is open its regular hours. Include any seven consecutive calendar days. If waiting for a typical week in Fall 1998 will delay this form, please use typical week data from the preceding fiscal year. If you have data for the entire year, divide by the number of weeks that the library was open.

Hours open in a typical week (line 43) - Report an unduplicated count of hours open in a typical week for both main library and branches reported in Part A using the following method. If a library is open from 9 a.m. to 5 p.m., Monday through Friday, it should report 40 hours per week. If several of its branches are also open during those hours, the figure remains 40 hours per week. Should Branch A also be open one evening from 7:00 to 9:00, the total hours during which users can find service becomes 42. If Branch B is open the same hours on the same evening, the total remains 42, but if it is open two hours on another evening, or from 5:00 to 7:00 on the evening when Branch A is open later, the total becomes 44 hours during which users can find service.

Gate count in a typical week (line 44) - Report the number of persons who physically enter library facilities in a typical week. It is understood that a single person may be counted more than once.

Reference transactions in a typical week (line 45) - Report the total number of reference transactions in a typical week. A reference transaction is an information contact that involves the knowledge, use, commendation, interpretation, or instruction in the use of one or more information sources by a member of the library staff. Information sources include printed and non-printed materials, machine-readable databases (including assistance with computer searching), catalogs and other holdings records, and, through communication or referral, other libraries and institutions, and persons both inside and outside the library. Include information and referral services. If a contact includes both reference and directional services, it should be reported as one reference transaction. When a staff member utilizes information gained from a previous use of information sources to answer a question, report as a reference transaction, even if the source is not consulted again during this transaction. Duration should not be an element in determining whether a transaction is a reference transaction.

Do not report directional transactions here. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe the library; such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction in locating, within the library, staff, library users, or physical features, etc., and giving assistance of a nonbibliographic nature with machines.

PART G - ELECTRONIC SERVICES

This section requests information about the availability of electronic services in the library and elsewhere on campus and off campus access by your primary clientele, and other users. The questions require a "yes" or "no" response to the availability of the various services listed.

FY 1998/1999 PUBLIC LIBRARY ANNUAL REPORT

SECTION A INSTRUCTIONS: CURRENT INFORMATION

Provide information that is **current** at the time of filing this report.

PART I: DIRECTORY INFORMATION

Contact Linda Neely at the Library of Michigan to report directory information (PART I) changes as they occur throughout the year. **(see accompanying LM contact list)**

Current Legal Name of Main Library:	Attach documentation authorizing legal name change, such as Board minutes or establishment documentation.
Previous Legal Name of Main Library:	Complete if name change occurred since last annual report was filed.
Street Address (number, street, etc.):	The complete street address of the main library. Do not report a post office box or general delivery.
City:	The city or town in which the main library is located.
Zip+4:	The standard five-digit postal zip code and the four-digit postal zip code extension for the street address of the main library.
Phone Number:	The telephone number of the main library, including area code.
Telefax:	The telephone number for the telefax machine used for administrative purposes at the main library, including area code.
TDD Phone Number:	The number to be called when utilizing a Telephone Device for the Deaf (TDD).
County:	The county in which the main library is located.
Library Organization Type:	Check the "type name" reflecting the library's current organizational structure according to establishment statutes.
MichiCard Member:	Indicate whether the library currently participates in the MichiCard program.
Name of Main Library Director:	The name of the current official director of the main library. If the director position is vacant at the time of filing this report, provide the name and title for the acting or interim director and label as such.
Name of Library Cooperative:	Provide the name of the library cooperative if the library is a member at the time of filing the Annual Report. If the library is not a member at the time of filing, indicate "none".
Internet Email Address:	The address to be used to contact the library director via the Internet.
Web Address:	If your library has a home page accessible over the Internet, please include the web address. Example: www.library.lib. mi.us/library.html

PART II: CURRENT SCHEDULE OF OPEN HOURS

Record **current** scheduled hours for the **main public library**. Record the current information in the blank boxes. If primary public library service is to be provided at a different location from the administrative offices, duplicate this pag and complete Directory Information and Current Schedule of Open Hours for both locations. For each outlet, use Section A - Page 1A. For more than one outlet, copy this page as many times as needed, or attach a schedule that includes all the requested information. Do not include service outlets that are not administered by the library system. Only include branches or bookmobiles.

Current Schedule:	Indicate the current scheduled hours for the main public library.
Alternate Schedule:	This chart should only be completed if the library operates on an alternate schedule for 5 or fewer months of the year.
Period of Alternate Schedule: (mo/day/yr...mo/day/yr)	Provide the beginning and ending dates for the alternate schedule, as planned for the current year. Then enter open and closing hours for each day of the week during the alternate schedule.

PART III: NON-RESIDENT FEES INFORMATION

Mark an "x" in the Yes or No box to indicate whether your library charges library card fees to any persons living outside of your service area. If you answered "Yes" provide the Fee Schedule or Non-Resident Rate. Fill in the blank box with the current information.

PART IV: TECHNOLOGY (see form for instructions)

PART V: SALARY AND BENEFIT INFORMATION

Report current information for this section. Pay scale information should be the most recently available for your library Director/Head Librarian and staff. Report salary information for filled and vacant positions. Include benefit package information for your library Director/Head Librarian only.

Director/Head Librarian and Library Staff:	Using the library's current pay scale, indicate if the positions require an ALA-MLS degree, the average hours worked per week, and the annual salary range for the classifications listed for the main library. Position titles may not reflect exact titles used at your library. Use the closest match. Report both minimum and maximum annual salary costs.
Benefit Information:	Mark an "x" after each benefit category if your library pays any portion or all of that benefit for your Director/Head Librarian. If a selection does not apply, leave it blank.

PART VI: MILLAGE INFORMATION

Millage Rate Authorized:	Enter the latest millage rate approved by the voters in your service area. This is the maximum that the library may levy.
Millage Authorization Date:	Enter the month and year when the latest millage was approved by the voters in your service area.
Millage Rate Levied:	Enter the latest millage rate levied for library services. This is the rate that actually was used in determining property taxes.
Millage Renewal Date:	Enter the month and year when the millage will be voted on for renewal. If the millage was voted "in perpetuity," leave date blank and indicate this by putting a check mark in the Millage Voted in Perpetuity box.

PART VII: TRUSTEES REPORT

List the names of Trustees who are serving at the time this report is filed. Be sure to complete the "Term Expires" column.

Do not list Trustees whose terms have expired at the time of filing this report.

Library Staff Members may not be voting members of the Board of Trustees.

School District Libraries organized under Public Act 451, 1976, must report both their legal School Board and their Library Advisory Board.

If a Board position is vacant at the time of filing, make an entry for the vacant position to verify that your Board will have the appropriate number of Trustees. When the position is filled, contact *Linda Neely* to report the new Board member and term. **(see accompanying LM contact list)**

Main Library City:	Indicate the city in which the main library facility is located.
Main Library County:	Indicate the county in which the main library facility is located.
Main Library Name:	Indicate the legal name of the main library.
Current Organizational Statute:	Indicate the Michigan library establishment statute under which the library is currently organized. (see list on next page)
Total Number of Voting Members Required by Statute of Legal Establishment Document:	Indicate the number of voting members required by statute or legal establishment document.
Trustee Name:	List the legal name for each current Board of Trustees member, beginning with officers. Leave blank line for vacancies and contact the Library of Michigan when the positions are filled.
Voting Member:	Indicate if trustee is a voting member of your Board.
Mailing Address:	Provide a current mailing address for each Board member. Include street number and street name, city and zip code. Provide two-letter state code only if the person resides outside of Michigan.
Internet Email Address:	The address is to be used to contact the trustee via the Internet.
Phone Number:	Provide the phone number at which each individual can be reached during the day.
Term Expires (mo/yr):	List the month and year the term for each Board member will expire. If an individual serves on the Board as a function of his municipal office, write "ex officio" in this space.
Library Trustees are Appointed, Elected, Municipal Governing Body:	Check the box which describes how your library Board members are designated. Only one box should be checked.

FY 1998/99 PUBLIC LIBRARY ANNUAL REPORT
SECTION B INSTRUCTIONS: THE REPORTING YEAR

Unless otherwise indicated, all information is for the Main Library and all Branches. Financial information must be precise for income and expenditures during the reporting year and should be reported in whole dollars. Other statistical information should be estimated if exact counts are not available. Do not leave blank spaces. Enter "0" (zero) if the library did not offer the service, did not offer that type of material, did not spend or receive money in that category, or if the question does not apply to your library. **This report, or a letter of intent to file, must be postmarked on or before February 1, 1999 to be eligible to receive state aid. If a letter of intent to file is submitted, the original Annual Report must be postmarked on or before March 31, 1999.**

Report Year: Most recent fiscal year completed prior to October 1, 1998, even if that means reporting less than 12 months of data. The reason for reporting less than 12 months of data could be due to a change in legal status, change in fiscal year, etc. If your reporting year has changed, provide documentation authorizing the change, such as board minutes.

PART I: ADMINISTRATIVE ENTITY INFORMATION

Legal Name of Main Library:	Attach documentation authorizing legal name change, such as board minutes or establishment documentation.
Street Address:	The complete street address of the main library. Do not report a post office box or general delivery.
City:	The city or town in which the main library is located.
Zip+4:	The standard five-digit postal zip code and the four-digit postal zip code extension for the street address of the main library.
Phone Number:	The telephone number of the main library, including area code.
County:	The county in which the main library is located.
Library Cooperative:	Provide the name of the library cooperative if the library was a member during the reporting year. If the library was not a member, indicate "none."
Library Organization Type:	Select the organization type that reflects the library's organizational structure according to establishment status at the end of your reporting year.

Administrative Structure: Mark the box that best identifies your library's administrative structure according to the following federal definitions:

Administrative Entity Only
An administrative entity that does not serve the public directly and has no direct service outlets but may provide staff, materials, and services to other libraries; may receive and spend funds on behalf of other libraries; or may contract with other libraries to provide various library services. Examples are headquarters of systems, federations, or cooperative services.

Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Separate
An administrative entity that serves the public directly with two or more service outlets, including some combination of central library(ies), branch(es), bookmobile(s), and/or books-by-mail only. The administrative offices are separate from the direct service outlets and do not provide direct library services.

Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Not Separate
An administrative entity that serves the public directly with two or more service outlets, including some combination of central library(ies), branch(es), bookmobile(s), and/or books-by-mail only.
Administrative Entity with a Single Direct Service Outlet
An administrative entity that serves the public directly with one central library, books-by-mail only, or one bookmobile.

PART II: HOURS OPEN AND SQUARE FOOTAGE SUMMARY

The chart lists the hours open during the reporting year for each outlet type. **For State Aid,** the information provided here is used to verify that the library (or the main library and its branches) met the minimum scheduled hours open per week requirement for its class size during the reporting year.

Central Library(ies): One type of single outlet library or the library which is the operational center of a multiple-outlet library and is synonymous with a main library. Usually all processing is centralized here and the principal collections are housed here. Not all administrative entities have a central library and some administrative entities have more than one central library.

Branch(es): Auxiliary unit of an administrative entity which has at least all of the following: 1) separate quarters; 2) an organized collection of library materials; 3) paid staff; and 4) regularly scheduled hours for being open to the public.

Bookmobile(s): Traveling branch library consisting of at least all of the following: 1) a truck or van that carries an organized collection of library materials; 2) paid staff; and 3) regularly scheduled hours (bookmobile stops) for being open to the public. Report the number of vehicles in use, not the number of stops the vehicle makes.

A. Number operated during reporting year:

If none of the outlet type were operated during the reporting year, put "0" (zero) in column A and leave the rest of the line blank.

B. State Aid unduplicated scheduled average hours per week:

Unduplicated branch hours are hours when one or more branches are open when the main library is not. Do not count duplicate branch hours. For example:

Main library open 9am-4pm Mon-Fri = 35 unduplicated hrs/wk
rth Branch open Noon-8pm Tues, Thurs = 8 unduplicated hrs/open
10am-4pm Fri = no unduplicated hrs
South Branch open 10am-2pm Sat = 4 unduplicated hrs
open 10am-6pm Tues-Fri = 2 hr (Fri)+2 hr (Wed)
Total unduplicated branch hours for the system is 16.
Total unduplicated hours for State Aid is 51 per week

Note: You must attach a schedule showing main library and branch library hours for the reporting year if using unduplicated hours to qualify for state aid. If a public library has more than one branch, and if the hours for the main library building and each established branch library are different, the unduplicated hours may be added together to satisfy the minimum open hours requirement to qualify for state aid. The minimum open hours requirement must be maintained for not less than 9 months of the 12 month operating period. If a reduced hours schedule is implemented, the library must be open not less than 10 hours per week.

C. Total annual public service hours for the reporting year:

Using scheduled hours as a guide, subtract known closed days or weeks, both scheduled and unscheduled, to derive a realistic annual total hours open figure for your library during the reporting year.

D. Total Square Footage:

Report the total square footage of the facility used for library purposes.

PART III: PAID STAFF

Include all employees paid with library funds to do library work or to maintain the library building for the main library, all branches, bookmobiles and other service outlets. All employees whether or not they are certified by the Library of Michigan are included. This chart should not include volunteers, since these figures may be used to determine average staff expenditures. To ensure comparable data, 40 hours per week has been set as the measure of full-time employment. Derive the Full Time Equivalent (FTE) staff figure by adding the total number of hours worked by all employees in each category. Then divide the total staff hours by 40 and round to two decimal places.

ALA-MLS Librarians:

Librarians with master's degrees from programs of library and information studies accredited by the American Library Association.

Total Librarians:	Persons with the title of librarian who do paid work that usually requires professional training and skill in the theoretical or scientific aspects of library work, or both, as distinct from its mechanical or clerical aspect. This data element also includes ALA-MLS.
All Other Paid Staff:	Include all other library employees paid from the reporting unit budget, including plant operations, security, and maintenance staff.
Total Paid Employees:	The sum of "Total Librarians" and "All Other Paid Staff."

PART IV: OPERATING INCOME (use whole numbers only)

Report income used for operating expenditures as defined below. DO NOT include capital income, contributions to endowments, income passed through to another agency, or funds unspent in the previous fiscal year. This section provides detail of local, state and federal income for your library's reporting year. Include federal, state or other grants except for LSCA Title II grants and grants for capital expenditures. It is important to keep accurate financial records for each reporting year and to be able to track local, state and federal funds separately. Although there must be a realistic relationship between total operating income and total operating expenditures, the figures will probably not balance exactly. It is important to report accurately, since the library must be able to verify any financial information with audited figures. For purposes of this report, **Income** is defined as actual cash or documented monetary transfer to the library fund. Do not include in-kind services, pledges and grants not received.

Total Local Operating Income is used to meet the 3/10 mill match requirement for State Aid. If your library's total service area does not meet this state aid standard, revenues from the total legal service area and individual contracted municipalities will be reviewed. For this reason, the Operating Income report form provides a line for each municipality served by your library. When completing the form:

- If your legal service area is comprised of more than one municipality (for example, a whole county, a school district of two or more municipalities) the legal area income can be reported on the first line with a bracket to show the included municipalities.

- If you cannot break down miscellaneous "other public local income" by municipality, report it all on the top line of the Legal Service Area section.

- Only local income needs to be broken down by municipality.

a. **Legal Service Area:**	Name of a municipality or other designated jurisdiction served under statute during the reporting year. Example: school district, name of county (if whole county).
Population Served:	The number of people in the geographic area (as determined by the U.S. Bureau of the Census) for which a public library has been established to offer services and for which (or on behalf of which) the library derives income. For administrative entities that do not serve the public directly and have no outlets (e.g., a system, federation, or cooperative service), this number shall be "0" (zero).

Local Penal Fine Revenues (A):	Report Penal Fine revenues received during the reporting year. If you do not know the amount received for each individual service area, calculate it by determining the total population your library serves in the county and dividing the penal fines received from that county by the population served to determine the per capita rate. Multiply the per capita rate by the population of each service area to determine penal fines received from each service area. If your library has service areas in two or more counties, you must determine each rate separately.
Income from Voted Millage (B):	Enter only revenues received during the reporting year from a **dedicated** library millage which was approved by a vote of the people. If the millage is for a multimunicipality legal service area (whole county or district structure), complete millage information on the top line only and draw brackets to indicate the inclusive municipalities.
Appropriated Tax Income (C):	This revenue is received by the library directly from the municipal, county, district or school governing body. This revenue is not the result of a dedicated voted library millage.
Other Local Government Income (D):	Report miscellaneous income received from local government sources. (Do not include user fees.) If the library received revenue from a Single Business Tax levied on local business, enter the amount in this column on the top line of the legal area chart.
Total Local Government Income (E1):	Add columns A, B, C, and D. This includes all tax and non-tax receipts designated by the community, district, or region and available for expenditures by the public library. Do not include the value of any contributed or in-kind services or the value of any gifts and donations, fines, or fees paid by individuals.
Other Local Operating Income (F1):	Report miscellaneous income from local non-government sources. This category includes user fines and fees, collections from coin operated equipment, income from used book sales, fundraisers, library Friends events, etc. Non-capital cash contributions are included in this category. Include, for example, monetary gifts and donations received in the current year, interest, library fines, and fees for library services. Do not include the value of any contributed or in-kind services or the value of any non-monetary gifts and donations. If it is impossible for you to break down the miscellaneous income by individual municipality, report the Other Local Operating Income on the top line of the legal service area chart.
Millage Rate Levied:	Record the millage rate levied for the income reported in column B.
b. Contracted Municipality:	Name of municipality or other designated jurisdiction with which the library has a library service contract approved by the Library of Michigan.

Population Served:	The number of people in the geographic area (as determined by the U.S. Bureau of the Census) for which a public library has been contracted to offer services and from which (or on behalf of which) the library derives income.
Local Penal Fine Revenues (A):	Report Penal Fine revenues received during the reporting year. If you do not know the amount received for each reported contracted municipality area, calculate it by determining the local total population served by your library in the county as a result of service contracts and dividing the penal fines received from that county by the population served to determine the per capita rate. Multiply the per capita rate by the population of each contracted municipality to determine penal fines received for each municipality. Penal fines distribution rates are different for each county. If your library has service contracts in more than one county, you must determine each rate separately.
Income from Voted Millage (B):	Enter only revenues received during the reporting year from a **dedicated** library millage which was approved by a vote of the people. If the millage is for a multimunicipality contract service area (whole county or district structure), complete millage information on the top line only and draw brackets to indicate the inclusive municipalities.
Appropriated Tax Income (C):	This revenue is received by the library directly from the municipal, county, district or school governing body. This revenue is not the result of a dedicated library millage and does not include contract fee income.
Contract Fee Income (D):	Revenue received from the contracted municipalities as stated in the library service contract. Do not include penal fine income.
Total Local Government Income (E2):	Add columns A, B, C, and D. This includes all tax and non-tax receipts designated by the community, district, or region and available for expenditures by the public library. Do not include the value of any contributed or in-kind services or the value of any gifts and donations, fines, or fees paid by individuals.
Other Local Operating Income (F2):	Report miscellaneous income from local non-government sources. This category includes user fines and fees, collections from coin operated equipment, income from used book sales, fundraisers, library Friends events, etc. Non-capital cash contributions are included in this category. Include, for example, monetary gifts and donations received in the reporting year, interest, library fines, and fees for library services. Do not include the value of any contributed or in-kind services or the value of any non-monetary gifts and donations.
Millage Rate Levied:	Record the millage rate levied for the income reported in column B.

c. Operating Income Summary

Total Local Government Income (E1+E2):	Sum of E1 and E2.
Total Other Local Operating Income (F1+F2):	Sum of F1 and F2.
Total Local Operating Income (E1+E2+F1+F2):	Sum of E1, E2, F1, and F2. **This figure is used to assess the library's financial eligibility for state aid.**
State Government Operating Income (G):	Report all funds received by your library from the State government for operating expenditures, except for federal money distributed by the State. Include all state aid payments received by your library during the reporting year.
Federal Government Operating Income (H):	Report all federal government funds received by your library for operating expenditures, including federal money distributed by the State. Report grant funds received for non-capital expenditures from LSCA and LSTA. Do not include funds you received and passed through to another public library.
Total Operating Income (I):	Sum of E, F, G and H. ("Total Local Operating Income," "State Government Operating Income" and "Federal Government Operating Income")

PART V: CAPITAL INCOME (use whole numbers only)

State and Federal Capital Income:	Report state and federal governmental funds (including grants) received by your library for the purpose of capital expenditures. Examples include funds received for construction, expansion and renovation of existing library facilities and funds received for the purchase of equipment, furniture, technology systems, and other one-time, extraordinary projects.
Private and Local Capital Income:	Report private and local governmental funds (including bond income and grants for capital expenditures) received by your library for the purpose of capital expenditures. Examples include funds received for construction, expansion and renovation of existing library facilities and funds received for the purchase of equipment, furniture, technology systems, and other one-time, extraordinary projects. These funds may be used to meet the 3/10 mill local support financial requirement for State Aid.
Total Population Served:	Sum of "Legal Service Area Population served" and "Contracted Municipality Population Served."

PART VI: OPERATING EXPENDITURES

Operating expenditures are the current and recurrent costs necessary to support the provision of library services. List only expenditures paid from library operating budgets. Complete every box, leave no box blank. Enter "0" (zero) if none.

A. Staff Expenditures (use whole numbers only)

Salaries & Wages:	Include salaries and wages for all library staff (including plant operations, security, and maintenance staff) for the fiscal year. Include salaries and wages before deductions but exclude employee benefits.
Employee Benefits:	The benefits outside of salaries and wages paid and accruing to employees (including plant operations, security, and maintenance staff), regardless of whether the benefits or equivalent cash options are available to all employees. Include amounts for direct, paid employee benefits including Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment compensation, workmen's compensation, tuition, and housing benefits.
Total Staff Expenditures:	The sum of "Salaries and Wages" and "Employee Benefits."
B. Collection Expenditures:	Include all expenditures for materials purchased or leased for use by the public.
Books/Print Materials:	Include expenses for any print or microform materials that are part of the library collection.
AV/Non-Print Materials:	Include expenses for any non-print collection materials, including film, video, sound recordings, etc.
Subscriptions (non-electronic format):	Include subscription expenditures for reference serials, journals and newspapers in print or microform formats. This does not include subscriptions for materials in electronic format.
Library Materials/ Subscriptions in Electronic Format:	Report operating expenditures for materials considered part of the collection, whether purchased or leased, such as CD-ROMs, magnetic tapes, and magnetic disks, that are designed to be processed by a computer or similar machine. Examples are U.S. Census data tapes, locally-mounted databases, serials, and reference tools. Include operating expenditures for equipment when the cost is inseparably bundled into the price of the information service product. Exclude operating expenditures for library system software and microcomputer software used only by the library staff.
Total Collection Expenditures:	Sum of expenditures for "Books/Print Materials," "AV/Non-Print Materials" "Subscriptions (non-electronic format)," and "Library Materials/Subscriptions in Electronic Format."

650

C. Operating Expenditures for Electronic Access: Report all operating expenditures from the library budget associated with access to electronic materials and services. Include computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer. Include expenditures for maintenance. Include expenditures for equipment used to run information service products when that expenditure cannot be separated from the price of the product. Report expenditures for services provided by national, regional, and local bibliographic utilities, networks, consortia and commercial services. Report all fees and usage costs associated with such services as OCLC FirstSearch or electronic document delivery. **Note:** Report only operating expenditures, including Internet access charges. DO NOT report items included as capital expenditures in Part VII.

D. Other Operating Expenditures: Include all expenditures other than those for staff, collection and electronic access. **Note:** Include expenses such as binding, supplies, repair or replacement of existing furnishings and equipment, and costs incurred in the operation and maintenance of physical facilities. DO NOT report items included as capital expenditures in Part VII.

E. Total Operating Expenditures: Sum of A, B, C, and D. It includes "Total Staff Expenditures," "Total Collection Expenditures," "Operating Expenditures for Electronic Access," and "Other Operating Expenditures."

PART VII: CAPITAL OUTLAY (use whole numbers only)

Include expenditures paid from your library capital budget for the acquisition of or additions to fixed assets such as building sites, new buildings and building additions, equipment, initial book stock, furnishings for new or expanded buildings, or vehicles, and other one-time, extraordinary projects. This excludes replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation. Complete every box, leave no box blank. Enter "0" (zero) if none.

Capital Expenditures for Electronic Access: Report capital expenditures associated with access to electronic materials and services. Include computer hardware and software used to support library operations, whether purchased or leased, mainframe or microcomputer. DO NOT report items included as operating expenditures in Part VI.

Furniture and Equipment Expenditures: Report major expenditures for all furniture and equipment other than for electronic access. Examples include shelving, patron tables and chairs, photocopiers, etc. DO NOT report items included as operating expenditures in Part VI.

Building Expenditures: Report expenditures for the acquisition of or additions to building sites, new building additions and library facilities. DO NOT report items included as operating expenditures in Part VI.

Total Capital Expenditures: Sum of "Capital Expenditures for Electronic Access," "Furniture and Equipment Expenditures," and "Building Expenditures."

PART VIII: LIBRARY COLLECTIONS

For each category, report the number of physical units (items) owned at the end of the reporting year. Complete every box, leave no box blank. Enter "0" (zero) if none. If exact amount is unknown, enter an estimate. Items which are packaged together as a unit, e.g. two compact discs, two films, or two video cassettes, and which are generally checked out as a unit, should be counted as one physical unit.

Book/Serial Volumes:	Books are non-periodical printed publications bound in hard or soft covers, or in loose-leaf format. Serials are publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals (magazines), newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies. Include microform, books, and serials in this category. Except for the current volume, count unbound serials as a volume when the library has at least half of the issues in a publisher's volume.
Audio:	Materials on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. Included are records, audiocassettes, audio cartridges, audio discs, audio reels, talking books, and other sound recordings.
Video:	Materials on which pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver or monitor.
Subscriptions (non-electronic format):	Refers to the arrangements by which, in return for a sum paid in advance, periodicals, newspapers, or other serials are provided for a specified number of issues. These are print and microfilm subscriptions only; not electronic or digital subscriptions. Count subscriptions purchased from the library's budget and those donated to the library as gifts. Count titles, including duplicates, not individual issues.
Number of library materials/subscriptions in electronic format:	Report the number of physical units such as CD-ROMs, magnetic tapes and magnetic disks, that are designed to be processed by a computer. Examples are U.S. Census data tapes, locally-mounted databases, reference tools, and serials on CD-ROM, tape or floppy discs. Exclude bibliographic records used to manage the collection, library system software, and microcomputer software used only by the library staff.
Total:	Total units at year end in library collections.

PART IX: SERVICES

Complete every box, leave no box blank. Enter "0" (zero) if none. If exact amount is unknown, enter an estimate.

A. Library Visits:	The total number of persons entering the library for whatever purpose during the year. **Note:** If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week in October and multiplying the count by 52. A "typical week" is a time that is neither unusually busy or unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).
B. Children's Program Attendance:	The count of the audience at all programs intended primarily for persons 14 years old or younger. Include all persons who attend, whether adults or children.
C. Circulation Transactions:	
Total Circulation:	The total annual circulation of all library materials of all types, including renewals. **Note:** Count all materials in all formats that are charged out for use outside the library. Interlibrary loan transactions included are only items borrowed that are then circulated to users. Do not include items checked out to another library.
Circulation of Children's Materials:	The total annual circulation of all children's materials in all formats to all users, including renewals.
D. Reference Transactions:	A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. It includes information and referral services. Information sources include printed and non-printed materials, machine-readable databases, catalogs and other holdings records, and through communication or referral, other libraries and institutions and people inside and outside the library. The request may come in person, by phone, by fax, mail or by electronic-mail from an adult, a young adult, or a child. Do not count directional transactions or questions of rules or policies. Examples of directional transactions are "Where are the children's books?" and "I'm looking for a book with the call number 811.2G." An example of a question of rules or policies is "Are you open until 9:00 tonight?" **Note:** If an actual count of reference transactions is unavailable, determine an annual estimate by counting reference transactions during a typical week in October and multiply the count by 52. A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).

E. Interlibrary Loans:	Report materials exchanged between your library and other libraries. Transactions between branches of the same library organization should not be counted here.
Number of items loaned to other libraries:	These are library materials, or copies of the materials, provided by one library to another upon request. The libraries involved in interlibrary loans are not under the same library administration. These data are reported as annual figures.
Number of items borrowed from other libraries:	There are library materials, or copies of the materials, received by one library from another library upon request. The libraries involved in interlibrary loans are not under the same library administration. These data are reported as annual figures.
F. Access to Electronic Services:	If your library provided access to electronic services, answer "yes." These are electronic services provided due to subscription, lease, license, consortial membership or agreement. Include full-text serial subscriptions and electronic databases received by the library or an organization associated with the library. If your library has Internet access, answer "yes" - AccessMichigan provides access to electronic services.
G. Access to the Internet:	The Internet is the collection of networks that connects government, university, and commercial agencies (e.g. NSFNET, WestNet, etc.) and is unified by the use of a single protocol suite, TCP/IP. Answer "yes" only if one or more of the following services were accessible: telnet, gopher, file transfer protocol, or community network. Answer "no" if your library had access to electronic mail only.

PART X: CERTIFICATION OF PUBLIC LIBRARY PERSONNEL

This section verifies that appropriate numbers and levels of staff worked at the library during the reporting year**to meet the minimum standards for state aid.** This page may be duplicated, as necessary. If the staff of your library is very large, a complete staff list may be attached to this page. In the latter case, the Social Security ID numbers need not b listed for uncertified individuals.

In most cases, only staff who are certified by the Library of Michigan need to be listed on this page. For most libraries, uncertified staff should be listed here only if: a) they were recently hired and have not completed the certification process, or b) if they were "grandfathered" in 1984 and remain employed in the same position.

Although it is necessary only to list persons who qualified the library for state aid during the reporting year, it is helpful to the Library of Michigan to have all current staff listed. For example, if the directorship changed during the reporting year, list the previous director with his or her departure date and the current director immediately below with his or her date of hire.

Employee Name (as it appears on Certificate):	Use the full legal name rather than nicknames or pseudonyms. If the person's legal name has recently changed, list the **current** name and add the previous name in parentheses. Be sure to list the director on the top line.

Michigan Drivers License or Michigan ID Number:	Provide either a Michigan Drivers License or State of Michigan Identification number for each person listed.
Last 4 Digits of Social Security Number:	The Social Security numbers are used as an identification code for certification records and transcript association. Report only the last four digits.
No. Hours Worked Per Week:	List the regularly scheduled or most frequent number of hours each person worked per week during the reporting year. This information is used to verify that the library was adequately staffed during the scheduled open hours.
Certificate Level Code:	Refer to the chart at the bottom of the page. If the person is eligible for certification but does not actually have a certificate at the time of filing, enter the level code followed by "elig."
Date of Hire (if new) OR Date Certificate Expires (if level VII):	A date of hire should be entered for any individual not listed on the previous year's report. If the person holds a Level VII certificate, the expiration date of his or her most current certificate should be entered.

PART XI: CERTIFICATION OF INFORMATION

The person signing the form must be an authorized official of the library who can be held accountable for the information on the form. The library director, board president or other authorized official must sign in order for the application to be processed. In the event of a state aid audit, the authorized official will be contacted. If a person other than the authorized official should be contacted for questions, enter his or her name in the space for "contact person." **Reports that are not signed are returned for signature. Signature must be original signature - signature stamps will not be accepted.**

Public Library Index

A library is listed twice in the Public Library Index if the library experienced a name change between its reporting year-end and the reporting date of the Public Library Annual report. The Public Library Annual Report Section A, Current Information, is presented under the name of the library at the reporting date. Reports included in this section are Salary and Benefit information; Non-Resident Fees and MichiCard Membership; and all Technology. The Public Library Annual Report Section B, Reporting Year Information, is presented under the name of the library at the library's reporting year-end. Reports included in this section are Outlets, Hours and Staff; Operating Income; Operating Expenditures; Capital Income and Expenditures and Square Footage; Library Collections; and Library Services.

The following libraries had a name change:

Reporting Date Name	Reporting Year End Name
Sandusky District Library	Sandusky Public Library
Sanilac District Library	Sanilac Township Library

	Established
Ashley District Library	7/28/98
Delta Township District Library	7/1/98

Although Sandusky Public Library, Class III, became Sandusky District Library, Class II, data is reported with Class III for all reports. Bay County Library System, Muskegon County Library and Wayne County Public Library do not report central libraries.

Public Libraries are classified on the basis of population into the following categories:

Population Served	Class
0 - 3,999	I
4,000 - 6,999	II
7,000 - 11,999	III
12,000 - 25,999	IV
26,000 - 49,999	V
50,000 or over	VI
